***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20 and 29 are rejected under 35 U.S.C. 102(b) as being anticipated by Higuchi et al..

Higuchi et al., U.S. Patent No. 5311500, discloses a substrate with a moisture barrier. As shown in figure 2, substrate 1 has at least one edge. A first dielectric material 2 is disposed on at least a portion of the substrate. A barrier structure 5a is formed on the dielectric layer proximate to the edge of the substrate.

***Allowable Subject Matter***

Claims 21 – 28 and 30 – 34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments filed 7/22/05 have been fully considered but they are not persuasive.

The Applicant argues that the moisture barrier of Higuchi et al. is not "proximate" to the edge. This is not found persuasive as Higuchi does disclose a barrier structure proximate to the edge of the substrate.

The Applicant also argues that the field of the invention is different than that of Higuchi et al.'s disclosure. This is also not found persuasive, as the claims recite a method of fabricating a moisture barrier and this is within the scope of what Higuchi discloses.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
